

Aymane El Maini

Software Engineer | Payment Systems & FinTech

GitHub | elmainiaymane03@gmail.com | +212-714-934-362 | LinkedIn | Morocco

Experience

Associate Software Engineer | ProgressSoft Corporation, Jordan (Remote) | Nov 2024 – Present

- Develop scalable microservices for PayHub, a leading enterprise payment platform in MENA, handling high-volume transaction processing with Java, Kotlin, and Spring Boot.
- Design backend systems using Domain-Driven Design (DDD) and event-driven architecture for secure, reliable financial services.
- Integrate with SWIFT messaging (MT/MX formats) and Visa B2B payment networks, ensuring ISO 20022 compliance.
- Implement production-grade reliability practices: comprehensive testing, monitoring with Datadog/OpenTelemetry.

Full Stack Developer Intern | Foodeals, Fez, Morocco | May 2024 – Aug 2024

- Built RESTful APIs with Spring Boot and Angular frontend interfaces; containerized with Docker.

Front-end Developer Intern | ICF Communication, Marrakesh, Morocco | Apr 2023 – Jun 2023

- Developed responsive web applications with HTML5, CSS3, JavaScript, and Tailwind CSS.
-

Education

Software Engineering Diploma | YouCode - UM6P, Safi, Morocco | 2023 – 2025

Software Engineering Studies | Ecotstig, Marrakesh, Morocco | 2022 – 2023

Projects

Clox – Bytecode compiler and stack-based VM in C with garbage collection and heap allocation.

Klox – Tree-walk interpreter in Kotlin supporting variables, closures, functions, and class-based OOP.

LinkUp – Friend matching platform backend in Spring Boot/Kotlin using DDD, with PostgreSQL, Docker, CI/CD (GitHub Actions), and React Native mobile app.

Genc – Build system for C inspired by Cargo, featuring TOML manifest and dependency management.

Skills

Programming Languages: Java, Kotlin, C/C++, Go, TypeScript, JavaScript

Backend & Frameworks: Spring Boot, Spring Data JPA, Hibernate, Spring Cloud, REST APIs, Spring Integration, Spring Modulith

Databases & Messaging: PostgreSQL, Oracle, MSSQL, MySQL, MongoDB, JMS, Kafka, RabbitMQ, Oracle AQ

Rules & Workflow: Drools, BPMN, Camunda, Business Process Management

DevOps & Cloud: Docker, Kubernetes, GitHub Actions, AWS, GCP, CI/CD, Linux

Observability & Testing: OpenTelemetry, Datadog, Signoz, JUnit 5, Mockito, Kotest, Testcontainers, TDD

Architecture: Domain-Driven Design, Microservices, Event-Driven Architecture, Functional Programming, Design Patterns

Languages

Arabic (Native) | English (Intermediate) | French (Intermediate)

Interests

Compilers and interpreters, low-level systems programming, bytecode VMs, algorithms and data structures, computer architecture.
